**IN THE MATTER OF THE ) DOCKET NO. E-01345A-16-0238**  
**APPLICATION OF ARIZONA )**  
**PUBLIC SERVICE COMPANY FOR )**  
**APPROVAL OF ITS 2017 )**  
**RENEWABLE ENERGY STANDARD )**  
**AND TARIFF IMPLEMENTATION ) THE ENERGY FREEDOM COALITION**  
**FOR RESET OF RENEWABLE ) OF AMERICA'S APPLICATION FOR**  
**ENERGY ADJUSTOR. ) LEAVE TO INTERVENE**

Pursuant to A.A.C. R14-3-105, the Energy Freedom Coalition of America, LLC, a Delaware limited liability company<sup>1</sup> ("EFCA") registered to do business in the State of Arizona, hereby makes its Application for Leave to Intervene (the "Application") in the above captioned matter (the "Matter").

EFCA represents businesses that develop, provide, and research customers' adoption of residential and commercial distributed energy resources ("DERs") including, but not limited to, distributed generation solar ("DG Solar"). EFCA promotes its members' interests in providing these products by participating in a variety of jurisdictions, including in public utility commission proceedings across the nation and in the courts; and in keeping with its mission, has

<sup>1</sup> As of the date of this filing, its members include Silevo, Inc., SolarCity Corporation, ZEP Solar, LLC, 1 Sun Solar Electric, LLC, Go Solar, LLC, and Ecological Energy Systems.

1 intervened in several dockets at the Arizona Corporation Commission to date.<sup>2</sup> In support of this  
2 Application, EFCA states as follows:

3 EFCA is entitled to intervene because the REST Implementation Plans directly and  
4 substantially affect EFCA's interest in the adoption of DERs and EFCA's intervention will not  
5 unduly broaden the issues presented. In support of this Application, EFCA submits the  
6 following information.

7 **I. EFCA is Directly and Substantially Affected**

8 EFCA is entitled to intervene because the proposals at issue in the Matter and in the  
9 REST Implementation Plan process directly and substantially impact residential and commercial  
10 DERs and therefore, electricity consumers' demand for such products. EFCA seeks intervention  
11 in this docket so as to ensure that the adoption of DERs by residential and commercial utility  
12 customers is not impeded as a result of the resolution of the Matter. As such, EFCA will be  
13 directly and substantially affected by the Matter.

14 **II. EFCA's Intervention can Assist the Commission**

15 EFCA is uniquely well positioned to offer insight to assist the Commission in its  
16 evaluation of the issues in the Proceedings.

17 **III. EFCA's Intervention Will Not Broaden These Proceedings**

18 Granting EFCA intervenor status will not unduly broaden the issues or prejudice other  
19 parties to the Docket. EFCA is not and cannot be adequately represented by any other party. In  
20 order for DER developers to provide these valuable products and services, electricity customers  
21 must be presented with appropriate tariffs and other price signals that will lead them to want to  
22 choose to avail themselves of DER. As a result, the value of DER providers' products and  
23 services is uniquely dependent on the signals sent by rates on the customer's usage of energy and  
24 the distribution system, giving EFCA a direct interest in ensuring that the outcomes of this  
25 proceeding continue to support customers' DER adoption.
